Recommended Procedures

1. Provide introductory information about the 2nd amendment to the class. May use/revise ppt for the introduction.
2. Put students into pairs.
3. Give each student an envelope of the statements cut up. Have students take statements out and infer the topic for deliberation related to the 2nd amendment.
4. Have students sort statements into two categories, four statements each.
5. Give each student in the pair one of the primary source readings. Instruct students to closely read their source and identify the four statements from statement sort that are paraphrases of their reading.
6. Have students go through reading a second time and “**” any additional claims the author makes.
7. To check their understanding, have students with the same reading gather in a corner of the room, bringing annotated reading with them.
8. Have students pair up with an individual that had the same reading and write a brief paragraph summarizing claims from the assigned reading.
9. Have students return to their original pairs and share paragraphs with one another, listeners, should paraphrase back what they heard.
10. Have students pick the statement that best reflects their perspective on the issue or write their own unique statement.
11. Have students put desks in “U” formation for deliberation of the Keep our Student Safe Act (see ppt).
12. Go over basic rules of parliamentary procedure with class. Designate deliberation time and begin.
13. At the end of the deliberation, have students vote on the resolution.
14. Have students write a paragraph summarizing their position on the issue, addressing claims and counterclaims. Teachers could use tools such as google classroom & blackboard.com to promote online deliberation.
